PROFILE

Full-Stack Web Developer with over 6 years of professional experience in designing, developing, and maintaining web applications.
Since starting my career in 1398, I have gained expertise in web development and desktop application development.
Skilled in delivering scalable and efficient solutions, I am passionate about building high-quality systems and continuously expanding my technical knowledge.

WORK EXPERIENCE

AriaRama 1402 - 1403

Full-Stack Developer

- Contributed to the development of a full-stack web-based attendance system, implementing both backend (C# / ASP.NET / JS) and frontend features.
- Assisted in the development of a desktop application, collaborating with the team to implement core functionalities.

Home.quran.ac.ir 1401- Current
